March 13, 2020

At this time, the NETA Board and leadership have concluded that – despite our best efforts to proceed – now is simply not the time to hold our event. As a result of the evolving public health concerns around coronavirus (COVID-19) and **in the best interests of everyone involved, the NETA Board and leadership made the difficult, but necessary decision not to hold the NETA Spring Conference on March 25-27, 2020.**

In the meantime, we are committed to shifting resources to support anyone with needs related to providing distance, online learning or other tech in education needs. Please feel free to call or text this number, 402-957-2206, and a board member will contact you for support.

We realize this creates many questions and concerns. Please be patient with us as we work through all of the details. We will send out further communications in the near future.

Respectfully,

NETA Board
